

CONTENTS

UNIT 1: AIRPORT PLANNING	1.1 - 1.40
1.1. Introduction.....	1.1
1.1.1. Development of Air-Transport in India and Trends in Air Traffic ...	1.2
1.2. Air Transport Characteristics	1.2
1.2.1. General	1.2
1.2.2. Definitions of Terms and Standards	1.3
1.2.3. Characteristics of Aircraft.....	1.7
1.2.4. Benefits and Advantages of Air Transport.....	1.7
1.3. Airport Classification	1.8
1.3.1. Development Stages of Airport	1.8
1.3.2. International Civil Aviation Organisation (I.C.A.O.)	1.9
1.4. Airport Planning	1.10
1.4.1. General	1.10
1.4.2. Socio-Economic Characteristics of Catchment Areas.....	1.15
1.4.3. Site Selection for Airports	1.16
1.4.4. Factors Influencing Size of an Airport	1.17
1.4.5. Design and Drawing of Airport Components.....	1.17
1.4.6. Cost Estimation	1.18
1.4.7. Economic Evaluation.....	1.19
1.4.8. Institutional Arrangement.....	1.19
1.5. Airport Site Selection	1.20
1.5.1. Selection of site for airport	1.20
1.5.2. Surveys for Selection of Site	1.24
1.5.3. Regional Plan - ICAO Stipulations	1.28
1.6. Typical Airport Layouts.....	1.28
1.6.1. General	1.28
1.6.2. Conceptual Layout Pattern	1.30

1.6.3.	Airport Capacity	1.30
1.6.4.	Layouts of Indian Airports.....	1.30
1.7.	Parking and Circulation Area	1.31
1.7.1.	General	1.31
1.7.2.	Parking Location	1.32
1.7.3.	Access and Circulation Standards	1.32
Two Marks Questions and Answers.....		1.37
Review Questions		1.40

UNIT 2: AIRPORT COMPONENTS..... 2.1 – 2.57

2.1.	Introduction.....	2.1
2.2.	Apron.....	2.2
2.3.	Terminal Building	2.3
2.4.	Passenger Facilities and Services	2.5
2.5.	Hangars	2.7
2.6.	Taxiway.....	2.9
2.6.1.	Introduction	2.9
2.6.2.	Factors controlling taxiway Layout.....	2.9
2.6.3.	Geometric Design Standards	2.9
2.7.	Difference between Highway and airport pavements.....	2.12
2.8.	Airport Pavements	2.14
2.8.1.	General	2.14
2.8.2.	Pavement Structure.....	2.15
2.8.3.	Types of Airfield Pavement	2.15
2.8.4.	Selection of Pavement Type	2.16
2.8.5.	Design methods of Runway.....	2.17
2.9.	Runway Pavement Structural Design	2.17
2.9.1.	General	2.17
2.9.2.	Design Life	2.18
2.9.3.	Aircraft Traffic Considerations.....	2.18

2.9.4.	Non-Aircraft Vehicles.....	2.20
2.9.5.	Pass-to-Coverage Ratio	2.20
2.9.6.	Cumulative Damage Factor (CDF)	2.22
2.9.7.	Minimum Layer Thickness.....	2.23
2.10.	Pavement Design Using Faarfield	2.25
2.10.1.	General	2.25
2.10.2.	Application	2.25
2.11.	Flexible Pavement Design.....	2.25
2.11.1.	General	2.25
2.11.2.	FAARFIELD Flexible Pavement Design Failure Mode.....	2.25
2.11.3.	Asphalt Mixture Surfacing	2.26
2.11.4.	Base Course	2.26
2.11.5.	Subbase.....	2.28
2.12.	Rigid Pavement Design	2.30
2.12.1.	General	2.30
2.12.2.	FAARFIELD Rigid Pavement Design	2.30
2.12.3.	Concrete Surface Layer	2.31
2.12.4.	Base / Subbase Layers.....	2.32
2.12.5.	Subgrade	2.32
2.12.6.	Concrete Panel Thickness.....	2.33
2.12.7.	Concrete Flexural Strength.....	2.34
2.12.8.	Jointing of Concrete Pavements	2.34
2.12.9.	Transition between Concrete and Asphalt.....	2.37
2.13.	Airport Drainage	2.38
2.13.1.	General	2.38
2.13.2.	Rainfall analysis	2.38
2.13.3.	Factors influencing rate of runoff.....	2.38
2.13.4.	Calculation of runoff	2.39
2.14.	Surface Drainage.....	2.39
2.14.1.	General	2.39
2.14.2.	Longitudinal Slope	2.40

2.14.3. Cross (Transverse) Slope.....	2.41
2.14.4. Curbs and Gutters	2.41
2.14.5. Roadside and Median ditches.....	2.43
2.15. Subsurface Drainage System	2.43
2.15.1. General	2.43
2.15.2. Longitudinal Edge Drains.....	2.44
2.15.4. Drainage Blankets	2.46
2.15.5. Vertical Well System	2.46
2.16. Pavement Surface Drainage	2.46
2.16.1. General	2.46
2.16.2. Pavement grooving.....	2.47
2.16.3. Porous Friction Course.....	2.48
2.17. Special Design Considerations for Airfields	2.49
2.17.1. General	2.49
2.17.2. Recommended Design Parameters – Structural Considerations ...	2.49
Two Marks Questions and Answers.....	2.52
Review Questions	2.56

UNIT 3: AIRPORT DESIGN 3.1 – 3.63

3.1. Introduction.....	3.1
3.2. Runway Design	3.1
3.2.1. Runway Orientation.....	3.2
3.2.2. Runway Configurations.....	3.2
3.2.3. Wind Rose Diagram	3.3
3.3. Federal Aviation Administration (FAA).....	3.8
3.3.1. Runway Length	3.8
3.4. Corrections to Runway Length.....	3.12
3.4.1. Correction for Elevation.....	3.12
3.4.2. Correction for Temperature	3.12

3.4.3.	Correction for Gradient	3.13
3.5.	Geometric Design of Runways.....	3.13
3.6.	Airport Obstructions	3.15
3.6.1.	Imaginary Surfaces	3.15
3.6.2.	Types of Imaginary Surfaces	3.15
3.6.3.	Objects With Actual Heights	3.18
3.7.	Airport Zones	3.18
3.7.1.	Types of Airport Zones.....	3.18
3.7.2.	Zoning Laws.....	3.23
3.8.	Visual Aids.....	3.24
3.8.1.	Introduction	3.24
3.8.2.	Indicating Devices	3.24
3.9.	Airport Lighting.....	3.25
3.9.1.	Approach Lighting Systems	3.25
3.9.2.	Runway Threshold Lighting.....	3.26
3.9.3.	Runway Edge Lighting.....	3.26
3.9.4.	Runway Centerline and Touchdown Zone Lights	3.27
3.9.5.	Runway Approach Slope Indicators	3.28
3.9.6.	Taxiway Edge and Centerline Lighting	3.28
3.10.	Airport Marking	3.31
3.10.1.	Runway Marking.....	3.31
3.10.2.	Runway Threshold Markings	3.32
3.10.3.	Touchdown Zone Markings.....	3.33
3.10.4.	Taxiway Centerline and Edge Markings	3.35
3.10.5.	Taxiway Shoulders	3.37
3.10.6.	Enhanced Taxiway Markings	3.37
3.11.	Air Traffic Control Tower(ATC).....	3.38
3.11.1.	Functions of the Air Traffic Control Tower	3.40
3.11.2.	Objectives of an Air Traffic Controller	3.40
3.11.3.	Operations Linked with ATC.....	3.41
3.12.	Instrumental Landing System	3.42

3.12.1. Components of Instrumental Landing	3.42
Worked Out Examples	3.45
Two Marks Questions and Answers.....	3.59
Review Questions	3.63

UNIT 4: SEAPORTS COMPONENTS AND CONSTRUCTION . 4.1 – 4.79

4.1. Introduction.....	4.1
4.2. Definitions.....	4.2
4.2.1. Harbour.....	4.2
4.2.2. Docks.....	4.2
4.2.3. Ports.....	4.3
4.2.4. Satellite Port	4.3
4.2.5. Tides	4.3
4.2.6. Waves.....	4.3
4.3. Classification of Harbours	4.4
4.3.1. Classification of Harbour depending upon the Protection Needed .	4.4
4.3.2. Classification of Harbour depending upon the Utility	4.7
4.3.3. Classification of Harbour based upon the Location	4.9
4.4. Requirements of A Harbour.....	4.10
4.5. Features of A Harbour.....	4.11
4.5.1. Harbour Entrance.....	4.11
4.5.2. Approach Channel.....	4.12
4.5.3. Turning Basin	4.12
4.5.4. Sheltered Basin.....	4.12
4.5.5. Breakwaters	4.12
4.5.6. Wharves and Quays.....	4.13
4.5.7. Jetties and Piers	4.13
4.5.8. Lock and Locked Basin.....	4.13
4.5.9. Dry Docks and Slipways	4.13

4.5.10. Ancillaries.....	4.14
4.6. Site Selection	4.14
4.7. Site Investigations for Harbour	4.15
4.7.1. Surveys	4.15
4.7.2. Meteorological Data	4.18
4.7.3. Oceanographic Data	4.18
4.7.4. Geological Data	4.19
4.7.5. Soil Investigation.....	4.19
4.7.6. Seismic Data.....	4.21
4.7.7. Model Testing.....	4.21
4.7.8. Local Resources.....	4.21
4.8. Site Analysis for Harbour.....	4.22
4.9. Harbour Planning.....	4.22
4.10. Harbour Layout.....	4.25
4.10.1. Wet Area	4.26
4.11.2. Dry Area	4.26
4.11.3. Harbour Entrances.....	4.29
4.11. Futuristic Trends and Development of the Harbour.....	4.30
4.12. Good and Bad Harbours	4.30
4.13. Docking and Repair Facilities.....	4.31
4.13.1. Harbour Docks.....	4.31
4.14. Coastal Structures.....	4.31
4.15. Piers.....	4.32
4.15.1. General	4.32
4.15.2. Types of Piers	4.33
4.15.3. Additional Points for Piers	4.34
4.16. Breakwaters	4.34
4.16.1. General	4.34
4.16.2. Functions of Breakwaters.....	4.35
4.16.3. Types of Breakwaters	4.35
4.16.4. Mound Breakwaters.....	4.35

4.16.5.	Vertical Wall Breakwaters	4.40
4.16.6.	Composite Breakwater	4.41
4.16.7.	Special Type Breakwaters	4.42
4.16.8.	Real Time Study on Breakwaters	4.43
4.17.	Wharves	4.44
4.17.1.	Gravity Walls.....	4.45
4.17.2.	Slip Circles	4.46
4.17.3.	Wall on Wells.....	4.47
4.17.4.	Wall of Precast Blocks.....	4.49
4.17.5.	Sheet Pile Walls	4.50
4.18.	Jetties	4.53
4.18.1.	Jetty Alignment.....	4.53
4.18.2.	Differences Between Wharf and Jetty	4.54
4.19.	Quay.....	4.55
4.19.1.	General.....	4.55
4.19.2.	Design of Quay Walls.....	4.55
4.19.3.	Types of Quay Walls.....	4.55
4.19.4.	Important Details of Quay Walls.....	4.58
4.20.	Fenders.....	4.58
4.20.1.	General.....	4.58
4.20.2.	Types of Fenders.....	4.59
4.20.3.	Timber Piles Fenders with Springs.....	4.59
4.21.	Dolphins.....	4.60
4.21.1.	General.....	4.60
4.21.2.	Types of Dolphins.....	4.60
4.21.3.	Classification of Dolphins	4.61
4.22.	Navigational Facilities.....	4.62
4.22.1.	Necessity for Navigational Facilities.....	4.62
4.22.2.	Fixed and Floating Light Stations.....	4.62
4.22.3.	Lighthouse	4.63
4.23.	Signals.....	4.65

4.23.1. General.....	4.65
4.23.2. Requirements of a Signal.....	4.65
4.23.3. Types of Signals.....	4.65
4.24. Moorings.....	4.71
4.24.1. General.....	4.71
4.24.2. Mooring Accessories.....	4.71
4.24.3. Off-Shore Moorings.....	4.73
4.25. Inland Waterways.....	4.73
4.25.1. Inland Water Transportation in Free India.....	4.74
Two Mark Questions and Answers.....	4.75
Review Questions.....	4.78

UNIT 5: SEAPORT REGULATIONS AND EIA..... 5.1-5.42

5.1. Introduction.....	5.1
5.2. Natural Phenomena.....	5.1
5.2.1. Winds.....	5.1
5.2.2. Wave Fundamentals.....	5.3
5.2.3. Tides and Currents.....	5.5
5.2.4. Littoral Drift.....	5.6
5.3. Coastal Protection.....	5.8
5.3.1. General.....	5.8
5.3.2. Functions.....	5.8
5.3.3. Common Types of Coastal Works.....	5.8
5.4. Shore Protection and Reclamation.....	5.16
5.4.1. General.....	5.16
5.4.2. Shore Erosion due to Natural Phenomenon.....	5.16
5.4.3. Managing the Shore Erosion Problem.....	5.17
5.4.4. Reclamation Guidelines and Coast Management.....	5.17
5.5. Coastal Regulation Zone (CRZ).....	5.19
5.5.1. General.....	5.19

5.5.2.	Guidelines For CRZ	5.19
5.5.3.	Prohibited Activities in CRZ	5.20
5.5.4.	Permissible Activities in CRZ	5.21
5.5.5.	Classifications of Coastal Regulations	5.22
5.5.6.	Classifications of Coastal Regulations	5.23
5.6.	Environmental Impact Statements (EIS)	5.25
5.7.	Environmental Impact Assessment (EIA)	5.26
5.7.1.	General	5.26
5.7.2.	Objectives of an EIA	5.26
5.7.3.	EIA Process	5.27
5.7.4.	Environmental Considerations in Project Feasibility	5.29
5.7.5.	Extent of EIA	5.29
5.7.6.	Types of EIA	5.30
5.7.7.	EIA Study	5.31
5.7.8.	Environmental Clearance	5.32
5.7.9.	Environmental Regulations relevant to Port and Harbour Projects	5.33
5.7.10.	International Treaties	5.34
5.8.	EIA in Ports and Harbours Projects.....	5.35
5.8.1.	Need for the Project.....	5.35
5.8.2.	Consideration of Alternatives	5.35
5.8.3.	Project Description	5.37
	Two Mark Questions and Answers.....	5.39
	Review Questions	5.42
	Solved Anna University Question Papers.....	U.Q.1
