

CONTENTS

UNIT I

STONES - BRICKS - CONCRETE BLOCKS - LIME

1.1 – 1.43

1.1. Stone as Building Material	1.1
1.2. Classification of Stones	1.1
1.2.1. Geological Classification	1.2
1.2.2. Physical Classification	1.2
1.2.3. Chemical Classification	1.3
1.3. Properties of Stones	1.3
1.4. Commonly used building Stones in India	1.7
1.5. Tests on Stones	1.9
1.6. Uses of Stones	1.12
1.7. Bricks	1.13
1.8. Classification of Bricks	1.13
1.9. Manufacturing of Bricks	1.17
1.10. Properties of Bricks	1.21
1.11. Tests on Bricks	1.22
1.12. Uses of Bricks	1.24
1.13. Lime	1.24
1.14. Types of Lime	1.25
1.15. Classifications of Lime	1.26
1.16. Tests on Lime	1.27

1.17. Preparation of Lime Mortar	1.29
1.18. Uses of Lime	1.30
1.19. Concrete blocks	1.31
1.20. Concrete Hollow blocks	1.31
1.21. Lightweight Concrete Blocks	1.34
Two Marks Questions and Answers	1.36
Review Questions.....	1.43

UNIT II

OTHER MATERIALS

2.1 – 2.59

2.1. Timber a Building Material	2.1
2.1.1. Classifications of Timber	2.1
2.1.2. Classification based on its Position.....	2.2
2.1.3. Classification based on Mode of Growth.....	2.2
2.1.4. Classification based on Grading	2.3
2.1.5. Classification based on Modulus of Elasticity.....	2.3
2.1.6. Classification based on Durability	2.4
2.1.7. Classification based on Availability	2.4
2.1.8. Structure of Timber.....	2.4
2.1.9. Properties of Timber	2.5
2.1.10. Characteristics of Good Timber.....	2.6
2.1.11. Seasoning of Timber	2.7
2.1.12. Natural Seasoning	2.7
2.1.13. Artificial Seasoning	2.8

2.1.14. Precautions During Seasoning	2.9
2.1.15. Sawing of Timber	2.10
2.1.16. Defects in Timber	2.11
2.1.17. Common Markets Forms & Sizes of Timber.....	2.17
2.1.18. Uses of Timber.....	2.18
2.2. Plywood	2.18
2.2.1. Classifications of Plywood	2.19
2.2.2. Uses of Plywood	2.21
2.3. Veneer.....	2.21
2.3.1. Types of Veneer	2.22
2.4. False Ceiling.....	2.23
2.4.1. Types of False Ceiling	2.23
2.4.2. Advantages of False Ceiling	2.24
2.4.3. Disadvantages of False Ceiling.....	2.24
2.5. Steel.....	2.25
2.5.1. Properties of Steel	2.25
2.5.2. Types of Steel	2.26
2.5.3. Defects in Steel	2.27
2.5.4. Mechanical Treatment of Steel	2.27
2.5.5. Uses of Steel	2.29
2.6. Aluminium	2.29
2.6.1. Properties of Aluminium.....	2.29
2.6.2. Aluminium Alloys	2.30
2.6.3. Market forms of Aluminium.....	2.32

2.6.4. Uses of Aluminium	2.34
2.7. Glass.....	2.34
2.7.1. Properties of Glass	2.35
2.7.2. Types of Glass.....	2.35
2.7.3. Advantages of Glass	2.37
2.7.4. Disadvantages of Glass.....	2.39
2.8. Ceramics.....	2.39
2.8.1. Types of Ceramics	2.40
2.8.2. Uses of Ceramics	2.41
2.9. Refractories.....	2.41
2.9.1. Properties of Refractories	2.42
2.9.2. Classification of Refractories.....	2.43
2.9.3. Uses of Refractories.....	2.45
2.10. Composite Materials	2.45
2.10.1. Types of Composites.....	2.45
2.10.2. Fiber-Reinforced Plastic (FRP) Composites.....	2.47
2.10.3. Applications of FRP Composites.....	2.48
2.11. Fibre Textiles	2.48
2.11.1. Classifications of Fibre Textiles	2.49
2.12. Geomembranes and Geotextiles for Earth Reinforcement	2.50
2.12.1. Geotextiles for Earth Reinforcement	2.51
2.12.2. Classification.....	2.51
2.12.3. Uses of Geotextiles	2.52
Two Marks Questions and Answers	2.52
Review Questions.....	2.58

UNIT III

CONSTRUCTION PRACTICES AND SERVICE REQUIREMENTS 3.1 – 3.80

3.1. Types of Foundations.....	3.1
3.1.1. Shallow Foundations.....	3.2
3.1.2. Deep Foundations	3.4
3.1.3. Factors for Selection of Suitable Foundation type for a Building	3.7
3.2. Stone Masonry	3.7
3.2.1. Types of Stone Masonry	3.7
3.2.2. Rubble Masonry.....	3.8
3.2.3. Ashlar Masonry.....	3.10
3.3. Brick Masonry	3.11
3.3.1. Types of Brick Masonry	3.11
3.3.2. Benefits and Limitations of Brick Masonry over Stone Masonry	3.15
3.4. Plastering.....	3.16
3.4.1. Objectives and Requirements of Plastering	3.17
3.4.2. General Specifications of Plastering.....	3.17
3.5. Pointing	3.19
3.5.1. Types of Pointing.....	3.19
3.5.2. Comparison between Plastering and Pointing	3.21
3.6. Cavity Walls.....	3.21
3.6.1. Purpose of Cavity Walls	3.22
3.6.2. Points to be Considered in Cavity Wall Construction	3.23
3.6.3. Advantages and Disadvantages of Cavity Walls	3.24
3.7. Diaphragm Wall.....	3.24

3.7.1. Types of Construction Method	3.24
3.7.2. Procedure for Constructing Diaphragm Wall:	3.26
3.7.3. Applications of Diaphragm Walls	3.27
3.7.4. Advantages and Disadvantages of Diaphragm Walls	3.27
3.8. Formwork	3.28
3.8.1. Types of Formwork.....	3.28
3.8.2. Safety Considerations in Formwork	3.30
3.9. Centering and Shuttering	3.30
3.9.1. Requirements of Centering and Shuttering.....	3.31
3.9.2. Materials used for Centering and Shuttering	3.32
3.10. Shoring	3.33
3.10.1. Types of Shoring.....	3.33
3.10.2. Requirements of Shoring	3.37
3.11. Scaffolding.....	3.38
3.11.1. Components of a Scaffolding.....	3.38
3.11.2. Types of Scaffolding.....	3.39
3.12. Underpinning.....	3.41
3.12.1. Types of works for selection of underpinning methods.....	3.41
3.12.2. Structural Necessity for underpinning	3.42
3.12.3. Methods of underpinning	3.42
3.13. Roofing	3.45
3.13.1. Basic Elements of a Roof.....	3.46
3.13.2. Types of Roof	3.47
3.13.3. Roof Covering Materials.....	3.53

3.14. Flooring	3.55
3.14.1. Types of Flooring	3.55
3.15. Joints in Concrete	3.58
3.15.1. Types of Joints	3.58
3.16. Fire Protection	3.60
3.16.1. General Fire Safety Requirements for Buildings	3.61
3.16.2. Fire Alarms and Fire Extinguishing Equipments	3.62
3.17. Thermal Insulation	3.62
3.17.1. Methods of Thermal Insulation of Buildings	3.63
3.17.2. Alternate Methods of Building Thermal Insulation	3.64
3.18. Ventilation	3.64
3.18.1. Air Conditioning	3.65
3.18.2. Factors Affecting Air Conditioning	3.66
3.18.3. Type of Air-Conditioning	3.67
3.18.4. Advantages and Disadvantages of Air-Conditioning	3.68
3.19. Acoustics and Sound Insulation	3.69
3.19.1. Factors Affecting Acoustics of Buildings	3.69
3.19.2. Acoustic Properties of Building Materials	3.70
3.19.3. Advantages of Acoustic in Construction	3.71
3.20. Damp Proofing	3.72
3.20.1. Selection of Materials for Damp Proof Course in Buildings	3.72
3.20.2. Methods of Damp Proofing	3.73
Two Marks Questions and Answers	3.75
Review Questions	3.80

UNIT IV

CONSTRUCTION EQUIPMENTS

4.1 – 4.51

4.1. Construction equipments.....	4.1
4.2. Earthwork Equipments	4.2
4.3. Concreting Equipments	4.15
4.4. Material Handling Equipments	4.22
4.5. Dewatering / Pumping equipments.....	4.35
Two Marks Questions and Answers	4.44
Review Questions.....	4.50

UNIT V

CONSTRUCTION PLANNING

5.1 – 5.54

5.1. Construction Planning	5.1
5.1.1. Necessity for Construction Planning	5.2
5.1.2. Classification of Construction Projects.....	5.2
5.1.3. Steps in the Construction Planning	5.3
5.1.4. Objectives of Construction Planning	5.5
5.1.5. Principles of Construction Planning	5.5
5.1.6. Types of Construction Project Planning	5.5
5.1.7. Stages of Construction Planning	5.6
5.1.9. Limitations of Planning.....	5.7
5.2. Construction Scheduling.....	5.7
5.2.1. Classification of Scheduling	5.8
5.2.2. Methods of Scheduling	5.9

5.2.3. Uses of Construction Scheduling.....	5.17
5.2.4. Advantages of Construction Scheduling.....	5.18
5.3. CPM and PERT network modelling and time analysis.....	5.18
5.3.1. Network Diagram Representation.....	5.19
5.3.2. Errors to be avoided in a network diagram	5.20
5.3.3. Rules for Drawing Network Diagram.....	5.21
5.3.4. Basic Steps in PERT / CPM.....	5.22
5.3.5. Critical Path Method in Network Analysis.....	5.24
5.3.6. Program Evaluation and Review Technique (PERT) in Network Analysis	5.36
5.3.7. Difference between PERT and CPM	5.43
5.3.8. Advantages and Disadvantages of PERT and CPM	5.44
Two Marks Questions and Answers.....	5.45
Review Questions.....	5.51
Model Question Papers.....	MQ.1 - MQ.9
