CONTENTS

UNIT 1: CARDIAC AND RESPIRATORY THERAPY EQUIPMENT ..... 1.1 - 1.70

1.1. Pacemakers 1.1

1.1.1. Types of Pacemakers 1.3

1.1.2. Types of Pacing Modes 1.5

1.1.3. Components of Pacemaker 1.12

1.1.4. Specifications of Pacemaker 1.13

1.1.5. Methods of Stimulation of Pacemaker 1.13

1.2. Cardiac Defibrillators 1.16

1.2.1. AC Defibrillation 1.19

1.2.2. DC Defibrillation 1.20

1.2.3. Dual Peak DC Defibrillator 1.21

1.2.4. DC Defibrillator with Synchronizer (Synchronized DC Defibrillator) 1.22

1.2.5. Internal Defibrillators (Implantable Defibrillators) 1.25

1.2.6. Types of Implantable Defibrillators 1.30

1.2.7. External Defibrillators 1.31

1.3. Defibrillator Analyzers 1.34

1.4. Ventilators 1.36

1.4.1. Types of Ventilators 1.38

1.4.2. Terms in Ventilator 1.39

1.4.3. Classification of Ventilators 1.41

1.4.4. Pressure, Volume, and Time controlled ventilators 1.46

1.4.5. Basic Principle of Electromechanical Ventilator 1.47

1.4.6. Pneumatic flow system 1.47

1.4.7. Electronic Control System 1.48

1.4.8. High Frequency Ventilators 1.48

1.4.9. Ventilator testing 1.49
1.5. Humidifiers, Nebulisers and Aspirators 1.52
1.5.1. Humidifiers 1.52
1.5.2. Nebulizer 1.57
1.6. Aspirators or Suction Machine 1.60
1.6.1. Types of Suction Devices 1.61
Two Marks Questions and Answers 1.64
Review Questions 1.69

UNIT 2: BIOMECHANICAL THERAPEUTIC EQUIPMENT ..... 2.1 – 2.62

2.1. Electrodiagnosis 2.1
2.1.1. Key points related to Electrodiagnosis 2.2
2.2. Therapeutic radiation 2.7
2.3. Electrotherapy 2.14
2.4. Electrodes 2.17
2.5. Electrode tissue interface 2.19
2.6. Stimulators for nerves and muscles 2.22
2.7. Functional Electrical Stimulation (FES) 2.24
2.8. Peripheral Nerve Stimulator (PNS) 2.27
2.8.1. Equipment 2.27
2.8.2. Technique and treatment 2.28
2.8.3. Complications 2.28
2.9. Ultrasonic stimulation 2.31
2.10. Stimulators for pain and relief 2.32
2.11. Inferential Therapy Unit 2.34
2.11.1. Principle 2.35
2.12. Transcutaneous Electrical Nerve Stimulation (TENS) 2.38
2.12.1. Working Principle 2.38
2.12.2. Advantages 2.40
2.12.3. Disadvantages 2.41

2.13. Gait assessment and therapy 2.41
2.13.1. Gait Therapy 2.42
2.13.2. Advantages 2.44
2.13.3. Disadvantages 2.44
2.14. Continuous Passive Motion (CPM) 2.44
2.14.1. Working Principle 2.46
2.14.2. Types of CPM 2.46
2.14.3. Indications for Continuous Passive Motion (CPM): 2.47
2.14.4. Considerations and Precautions: 2.48
2.15. Cervical and lumbar traction machines 2.49
2.15.1. Cervical Traction Machine 2.49
2.15.2. Lumbar Traction Machine: 2.50
2.15.3. Considerations 2.51
2.16. Traction table 2.52
2.16.1. Key characteristics of Traction Table 2.52
2.16.2. Features of a Traction Table 2.53
2.16.3. Applications of Traction Tables 2.54
Two Marks Questions and Answers 2.55
Review Questions 2.62

UNIT 3: BODY CARE EQUIPMENT ..... 3.1 – 3.84

3.1. Skin Treatment 3.2
3.1.1. Ultra Sonic Spot Remove 3.3
3.1.2. Vacuum Theraphy Unit 3.8
3.1.3. Skin Tightening 3.16
3.1.4. Wrinkle Reduction 3.27
3.1.5. Facial and Rejuvenation 3.34
3.1.6. Laser Hair Therapy Machine 3.38
3.1.7. Body Slimmer/ Shaper 3.45
3.1.8. Deep Heat Therapy 3.52

3.1.9. Massager 3.59
3.1.10. Fitness 3.67
3.1.11. Treadmill 3.69
3.2. Bike 3.71
3.2.1. Key Features 3.72
3.2.2. Advantages 3.74
3.2.3. Applications 3.76
Two Marks Questions and Answers 3.78
Review Questions 3.84

UNIT 4: DENTAL CARE EQUIPMENT ..... 4.1 – 4.68

4.1. Dental Chair 4.1
4.1.1. History of Dental Chair 4.2
4.1.2. Types 4.2
4.1.3. Key Features 4.7
4.2. Dental Head Pieces and Accessories 4.9
4.2.1. Working Components 4.10
4.2.2. Advantages Of Dental Handpiece 4.11
4.2.3. Drawback 4.13
4.3. Evolution of Rotatory Equipment 4.14
4.3.1. Advancements 4.15
4.4. Low Speed Hand Piece 4.17
4.5. High Speed Hand Piece 4.18
4.6. Hand Piece Maintenance 4.20
4.7. Vacuum and Pneumatic Techniques 4.21
4.7.1. Types of Vacuum and Pneumatic System 4.22
4.7.2. Working 4.24
4.7.3. Oral Evacuation System 4.26
4.7.4. Vacuum Pump 4.30
4.7.5. Pneumatic Techniques 4.31

4.8. Dental Compressor 4.38
4.8.1. Dental Air Compressor 4.39
4.8.2. Considerations for Dental Compressor Selection 4.40
4.8.3. Benefits 4.41
4.8.4. Drawback in Adopting Dental Compressor 4.43
4.8.5. Applications of Dental Compressor 4.44
4.9. Decontamination Unit 4.46
4.10. Constant Fumigation Unit 4.48
4.11. Dental Radiography 4.51
4.11.1. Work Flow of Dental Radiography 4.51
4.11.2. Advantages of Dental Radiography 4.52
4.11.3. Drawbacks of Dental Radiography 4.53
4.11.4. Applications of Dental Radiography 4.54
4.12. Dental X-Ray Machine 4.54
4.12.1. Working Principle 4.55
4.12.2. Test Details 4.57
4.12.3. Types of Dental X-Rays 4.57
4.12.4. Advantages of Dental X-Rays 4.59
4.12.5. Disadvantages of Dental X-Rays 4.60
4.12.6. Applications of Dental X-Rays 4.60
Two Marks Questions and Answers 4.61
Review Questions 4.68

UNIT 5: HEAT & PHOTON THERAPY EQUIPMENT 5.1-5.112

5.1. High Frequency Heat Therapy 5.1
5.1.1. Dipole Alignment under External Field 5.2
5.2. Short Wave Diathermy (SWD) 5.3
5.2.1. Working Principle of Circuit 5.4
5.2.2. Application of SWD 5.5
5.3. Microwave Diathermy 5.6
5.3.1. Generation of Microwaves 5.7

5.3.2. Magnetron Structure 5.7
5.3.3. Circuit for Microwave Diathermy Machine 5.9
5.3.4. Working of MWD 5.10
5.3.5. Heat distribution during therapy with short waves and microwaves 5.10
5.3.6. Effects of high-frequency heat therapy 5.11
5.4. Ultrasonic Therapy 5.12
5.4.1. Block Diagram of Ultrasonic Therapy unit 5.12
5.4.2. Working Principle of Ultrasonic Therapy unit 5.12
5.5. Lithotripsy 5.13
5.5.1. Purpose of Lithotripsy 5.14
5.5.2. Shock wave lithotripsy 5.14
5.6. Basic Principle of Laser 5.17
5.6.1. Absorption 5.18
5.6.2. Spontaneous Emission 5.18
5.6.3. Stimulated Emission 5.19
5.6.4. Differences between Stimulated and spontaneous emission of radiation 5.22
5.6.5. Pumping 5.24
5.6.6. Characteristics of Laser 5.26
5.6.7. Components of Lasers 5.29
5.7. Different Types of lasers 5.30
5.7.1. Ruby Laser 5.30
5.7.2. Helium -Neon (He-Ne) Laser 5.33
5.7.3. Semiconductor Diode Laser 5.37
5.8. Therapeutic UV and IR Lamps 5.42
5.8.1. Ultraviolet Therapy 5.42
5.8.2. Infrared Therapy 5.48
5.9. Applications of LASERs in Medicine 5.53
5.10. CO_2 LASER Application in Medical Field 5.86

5.11. Helium neon LASER Applications in Medical Field 5.99
5.12. Nd-YAG LASER Applications in medicine 5.101
5.13. Ruby LASER in Medical Field 5.103
Two Marks Questions and Answers 5.107
Review Questions 5.112
Model Question Papers ..... M.Q.1 – M.Q.8
