

CONTENTS

UNIT I

PRECISION FARMING	1.1 - 1.51
1.1. Introduction to Precision Farming	1.1
1.1.1. Steps in Precision Farming	1.1
1.1.2. Key Components of Precision Agriculture	1.3
1.1.3. Technologies for Precision Farming	1.4
1.1.4. Agricultural Management in Precision Farming	1.6
1.1.5. Benefits of Precision Agriculture	1.7
1.2. Ground-based Sensors	1.8
1.2.1. Types of Ground-based Sensors in Precision Farming	1.9
1.2.2. Integration and Data Management:	1.10
1.2.3. Benefits of Ground-based Sensors in Precision Farming	1.11
1.3. Remote Sensing	1.12
1.3.1. Components of Remote Sensing	1.12
1.3.2. Key Concepts in Remote Sensing	1.14
1.3.3. Technologies used in Remote Sensing	1.15
1.3.4. Types of Remote Sensing Data	1.15
1.3.5. Applications of Remote Sensing in Precision Farming	1.16
1.3.6. Challenges and Considerations in Remote Sensing	1.17
1.3.7. Benefits of Remote Sensing in Precision Farming	1.17
1.4. Global Positioning System (GPS)	1.18
1.4.1. Components of GPS in Precision Agriculture	1.19
1.4.2. GPS Technology	1.21
1.4.3. GPS Applications in Precision Farming:	1.22
1.4.4. Challenges and Considerations in GPS Technology	1.23

1.4.5. Benefits of GPS in Precision Farming	1.24
1.5. Geographic Information System (GIS)	1.24
1.5.1. Components of Geographic Information System (GIS)	1.27
1.5.2. Application of GIS in Precision Farming:	1.28
1.6. Variable Rate Technology (VRT)	1.29
1.6.1. Components of VRT	1.29
1.6.2. Types of Variable Rate Applications	1.29
1.6.3. Benefits of VRT	1.30
1.6.4. Implementation Process of VRT	1.30
1.6.5. Challenges and Considerations of VRT	1.31
1.7. Mapping Software	1.32
1.7.1. Components of Mapping Software	1.32
1.7.2. Application of Mapping Software in Precision Farming:	1.33
1.7.3. Integration of GIS and Mapping Software in Precision Farming:	1.33
1.7.4. Benefits of GIS and Mapping Software in Precision Farming:	1.34
1.8. Yield Mapping Systems	1.35
1.8.1. Components of Yield Mapping Systems	1.35
1.8.2. Operation and Workflow of Yield Mapping Systems	1.36
1.8.3. Applications and benefits of Yield Mapping Systems:	1.37
1.8.4. Challenges and Considerations	1.38
1.8.5. Benefits of Yield Mapping Systems:	1.38
1.9. Crop Production Modeling	1.39
1.9.1. Components of Crop Production Modeling	1.41
1.9.2. Types of Crop Production Models	1.42
1.9.3. Applications of Crop Production Modeling in Precision Farming:	1.43
1.9.4. Challenges and Considerations	1.44
1.9.5. Benefits of Crop Production Modeling in Precision Farming:	1.45
1.9.6. Examples of Crop Production Models:	1.45

Two Mark Questions with Answers	1.48
Review Questions	1.50

UNIT II

ENVIRONMENT CONTROL SYSTEMS	2.1 - 2.39
------------------------------------	-------------------

2.1. Introduction of the Agricultural Environment Monitoring System	2.1
2.1.1. Characteristics of the Agricultural Environment Monitoring System ...	2.2
2.1.2. Components of the Agricultural Environment Monitoring System.....	2.3
2.1.3. Benefits of Agricultural Production Environment Monitoring Systems	2.4
2.1.4. Example of an Agricultural Environment Monitoring System.....	2.5
2.2. Environment Control Systems (ECS)	2.6
2.2.1. Key Components of Environment Control Systems.....	2.6
2.2.2. Artificial Light Systems.....	2.7
2.2.3. Purpose of Artificial Light in ECS.....	2.8
2.2.4. Types of Artificial Light Sources	2.8
2.2.5. Spectral Distribution	2.8
2.2.6. Light Intensity and Duration.....	2.8
2.2.7. Control Systems.....	2.8
2.2.8. Energy Efficiency	2.9
2.2.9. Heat Management.....	2.9
2.2.10. Human-centric Lighting.....	2.9
2.2.11. Adaptability and Customization	2.9
2.2.12. Monitoring and Analytics	2.9
2.3. Management of Crop Growth in Greenhouses	2.10
2.3.1. Techniques in Management of crop growth in greenhouses	2.13
2.4. Simulation of CO₂ Consumption in Greenhouses.....	2.16
2.5. On-line measurement of plant growth in the greenhouse	2.20

2.5.1. Benefits of Integrating on-line Measurement with Environment Control	2.25
2.6. Models of Plant Production.....	2.25
2.6.1. Functional Activities of Biochemical Models	2.26
2.6.2. Strategies involved in Models of Plant Production.....	2.30
2.6.3. Trends in Models of Plant Production	2.32
2.7. Expert Systems in Horticulture	2.32
2.8. Benefits of Environment Control Systems in Agriculture	2.35
2.9. Future Trends.....	2.36
Two Mark Questions with Answers	2.36
Review Questions	2.39

UNIT III

AGRICULTURAL SYSTEMS MANAGEMENT	3.1 - 3.50
3.1. Introduction to Agricultural systems	3.1
3.1.1. Key Elements of Agricultural Systems Management.....	3.1
3.1.2. Characteristics of Agricultural Systems.....	3.3
3.1.3. Factors Affecting the Agricultural System in Decision-Making	3.6
3.2. Managerial overview in Agricultural Systems Management.....	3.9
3.2.1. Key Elements in Managerial overview.....	3.9
3.3. Reliability in Agricultural Systems Management.....	3.11
3.3.1. Importance of Reliability in Agricultural Systems Management	3.12
3.3.2. Importance of Reliability in Agricultural Systems Management	3.13
3.3.3. Estimating System Reliability Values in Agricultural Systems	3.15
3.3.4. Example for Estimating Reliability of an Irrigation System in Crop Production.....	3.16
3.4. Simulation of Crop Growth and Field Operations	3.18
3.4.1. Components of crop simulation models	3.19

3.4.2. Key aspects related to the simulation of crop growth.....	3.22
3.5. Optimizing the use of resources in Agricultural Systems Management..	3.24
3.5.1. Importance of Optimization.....	3.24
3.6. Linear programming in Agricultural Systems Management	3.26
3.6.1. Importance of linear programming in Agricultural Systems Management	3.27
3.6.2. Examples of Linear Programming in Agriculture:	3.29
3.6.3. Optimizing the use of Resources: Linear Programming.....	3.30
3.6.4. Example of a Linear Programming Model	3.30
3.7. Project scheduling Agricultural Systems Management	3.34
3.7.1. Techniques involved in project scheduling.....	3.35
3.8. Artificial Intelligence (AI) in Agricultural System	3.37
3.8.1. Role of Artificial Intelligence (AI) in Agricultural Systems Management	3.43
3.8.2. Decision Support Systems (DSS) in Agricultural Systems Management	3.44
3.8.3. Integration of AI and DSS in Agricultural Systems Management	3.45
3.8.4. Benefits of AI and DSS in Agriculture:.....	3.45
3.8.5. Examples of AI and DSS in Agriculture:	3.46
Two Mark Questions with Answers	3.47
Review Questions	3.49

UNIT IV

WEATHER PREDICTION MODELS	4.1 - 4.40
4.1. Introduction to Weather Prediction.....	4.1
4.1.1. Importance of Weather Forecasting.....	4.1
4.1.2. Methods used in Weather Prediction	4.2
4.1.3. Modern Weather Forecasting.....	4.3

4.2. Role of Information Technology (IT) in Weather Prediction	4.4
4.3. Introduction to climate variability and seasonal forecasting.....	4.8
4.3.1. Importance of climate variability.....	4.10
4.3.2. Seasonal forecasting.....	4.12
4.4. Understanding and predicting world's climate system	4.14
4.5. Introduction to Global climatic models	4.16
4.5.1. Components of Global climatic models.....	4.20
4.5.2. Seasonal climate forecasting.....	4.23
4.5.3. Key Elements of Global climate models	4.25
4.6. General systems approach to applying seasonal climate forecasts	4.27
4.6.1. Approaches in seasonal climate forecasts.....	4.27
4.6.2. Core Tenets of the General Systems Approach:	4.31
4.6.3. Steps involved in the General Systems Approach	4.32
4.6.4. Benefits of a General Systems Approach	4.33
4.7. Artificial Intelligence (AI) in Climate Forecasts.	4.33
4.7.1. How AI Forecasting Works	4.34
Two Mark Questions with Answers	4.36
Review Questions	4.40

UNIT V

E-GOVERNANCE IN AGRICULTURAL SYSTEMS

5.1 - 5.40

5.1. Introduction to E-Governance.....	5.1
5.1.1. Importance of E-Governance in Agriculture	5.2
5.1.2. Benefits of E-Governance.....	5.4
5.1.3. National E-Governance Plan in Agriculture (NEGPA)	5.4
5.1.4. Objectives of NEGP-A	5.4

5.2. Expert Systems in E-Governance	5.6
5.3. Decision Support Systems (DSS) in E-Governance	5.7
5.4. Agricultural and Biological Databases.....	5.8
5.4.1. Agricultural and Biological Databases in E-Governance	5.10
5.5. Introduction to E-Commerce in Agriculture	5.12
5.5.1. Emerging Agri C-commerce business models.....	5.13
5.5.2. Benefits of Agri E-Commerce	5.16
5.5.3. E-Commerce in E-Governance	5.17
5.5.4. Business models of Agri E-Commerce Businesses	5.19
5.6. E-Business Systems & Applications	5.20
5.6.1. Steps involved in E-Business.....	5.22
5.6.2. Difference between E-Commerce and E-Business in Agriculture Systems	5.24
5.7. Technology Enhanced Learning Systems and Solutions	5.25
5.7.1. Technologies developed for Agriculture system	5.28
5.7.2. Benefits for farmers by adopting technology- enhanced learning systems.	5.29
5.8. E-Learning in E-Governance for Agricultural Systems.....	5.30
5.8.1. E-Learning Resources	5.32
5.9. Rural Development and Information Society in E-Governance.....	5.34
Two Mark Questions with Answers	5.36
Review Questions	5.40
Model Question Papers.....	MQ.1 - MQ.6
